Testimonials

My mother quickly settled in and made good friends with other residents and the care staff alike. There is a real family spirit in the home which makes for a relaxing atmosphere. It is clear that the staff don't just view the people staying there as "residents", it is much more personal than that.

The accommodation is very homely and there seems to be a programme of continually updating the decor where appropriate. The public areas are spacious, warm and homely and the bedrooms are also very homely.

My mother loves the food here (and she can be fussy) and my father has taken to having the occasional lunch there with my mother. He is as impressed with The Raikes as much as I do and has been very happy with the way things have turned out.

As a professional Social Worker and member of the National Independent Safeguarding Board for Wales I am all too aware of the challenges in the care for older people . I have visited many Residential, Nursing, EMI and Extra care facilities but I think the Raikes is one of the best in terms of respectful and considerate care by staff.

As an Independent Board member of a NHSTrust I am very aware of the management of pressure sores in those who are bed bound. The added complications that a person such as my Aunt who had capacity and did not wish to be moved brings to this. I valued Your gentle persistence to deliver the best care you could within the constraints was impressive

Over these last six months I have observed a very caring culture amongst staff which you as a leader have created . Your staff team appear enabled to make decisions and use their judgement to provide a really person centred home environment. So well done, not an easy job but one you and team do everyday almost naturally.
